## **Amgen and Immunex Receive Request for Additional Information from the Federal Trade Commission**

Thousand Oaks, Calif. and Seattle, Washington -- February 6, 2002 -- Amgen (Nasdaq: AMGN) and Immunex Corporation (Nasdaq: IMNX) today announced that they have received a request for additional information from the Federal Trade Commission (FTC) in connection with the previously announced acquisition of Immunex by Amgen.

The companies intend to respond promptly to the information request. This "second request" extends the waiting period under the Hart-Scott-Rodino Antitrust Improvements Act of 1976 during which the FTC is permitted to review the transaction. While the companies cannot estimate how long it will take to comply with the second request, they continue to anticipate the merger will close in the second half of 2002, as announced previously.

This news release contains forward-looking statements within the meaning of the "safe harbor" provisions of the Private Securities Litigation Reform Act of 1995, including statements about Amgen's anticipated acquisition of Immunex. These statements are based on management's current expectations and beliefs and are subject to a number of risks, uncertainties and assumptions that could cause actual results to differ materially from those described in the forward-looking statements. All statements other than statements of historical fact are statements that could be deemed forward-looking statements. For example, statements regarding timing of closing are forward-looking statements. Risks, uncertainties and assumptions include the possibility that the Immunex acquisition does not close or that the companies may be required to modify aspects of the transaction to achieve regulatory approval and other risks that are described in the Securities and Exchange Commission reports filed by Amgen and Immunex, including their most recent filings on Form 10-Q. Because forward-looking statements involve risks and uncertainties, actual results and events may differ materially from results and events currently expected by Amgen and Immunex. The companies are providing this information as of February 6, 2002. Amgen and Immunex assume no obligation and expressly disclaim any duty to update information contained in this news release except as required by law.
